

HYDROSTATIC DRIVEN PLATFORM CAR (TANDEM)

robust / wear-free braking / for gradients up to 7 % /
increase of traction weight (traction force)

HYDROSTATIC DRIVEN PLATFORM CAR

Standard Equipment

- » Programmable Logic Controller (PLC) incl. wheel slide protection
- » Pneumatic brake equipment
- » Hydraulic motors
- » Designed to carry a muck or mortar container

Facts

	2-axled Tandem	4-axled Tandem
Weight	max. 42 t	max. 72 t
